

147 FUNDRAISING FREQUENTLY ASKED QUESTIONS

WHICH ITEM IS THE BEST SELLER FOR FUNDRAISING FAMILIES?

The Ugandan Necklaces are a huge hit with our fundraising families! The story sells itself... 147 is honored to share the story of our sisters in Uganda who hand make these necklaces from recycled paper. They roll the beads by hand, dip them in varnish, and thread them onto the string. Prior to learning how to make these beads, most of the women "picked trash" or turned to prostitution to provide for their children.

But don't stop there...our shirts literally fly off the shelves for our fundraising families as well! They are soft, stylish shirts that creatively tell the message about the orphan crisis. When you wear our gear, people will ask you questions about your shirt and want to know where to purchase one!

CAN I RETURN ITEMS THAT I ORDER BUT DON'T SELL?

Unfortunately, we do not allow returns through the fundraising program. We really encourage families to take pre-orders to eliminate returns and recommend that you sell exactly what you order. We want every penny of your profits going into your adoption fund instead of spent on returning items.

CAN I EXCHANGE A SHIRT FOR ANOTHER SIZE?

We encourage you to sell that shirt to someone else! With the exclusive shirts in this program priced at \$10, it really doesn't make sense to pay shipping to return the item and then pay shipping for the replacement shirt. Your profits are eaten up in shipping costs if you do that. Instead, sell that shirt to another supporter and include a replacement shirt in your next order. By purchasing a sample kit and allowing your supporters to see a sample, you can drastically reduce sizing questions.

I HAVE A FUNDRAISING PARTY AND WANT TO HAVE GEAR ON HAND. WHAT IS THE BEST WAY TO DO THAT?

Fundraising parties are a fabulous way to share your story and allow your friends to support your journey! We are happy to recommend a variety of sizes for you to consider ordering based upon our own experience, but you need to consider the people you are including in your party to determine if that will make sense. You can always order a fundraising sample kit and take orders at your party if you aren't sure about the correct sizes to order.

I SEE THAT YOU HAVE 2 PROGRAMS. CAN I SELL BOTH WAYS?

You can sign up for both the Bulk and the Partnership Program, but will need a separate email address for each account. When ordering from the Bulk Program, you can use one account and email address. When you establish and review your partnership program, you will need a separate email address.

WHAT ARE THE ADVANTAGES OF EACH PROGRAM?

The Bulk Order Program can be used by ANY family that is actively pursuing adoption. Under this program, payment is given directly to that family, the profit margins are higher per item sold, and the fundraising family retains complete control of selling process. Families adopting through an agency or non-profit can take advantage of our Partnership Program. All payments under this program go directly to the agency and are not paid to individuals. The primary advantage of the Partnership Program is the ability to sell directly through a web link to our site. This allows for sales and shipping to supporters all over the country, with the collection of payment and distribution of product managed by 147 Million Orphans

I HAVE A FRIEND WHO ORDERED GEAR FROM THE 147 WEBSITE AND WANTS TO CREDIT OUR ADOPTION. CAN WE DO THAT?

The 147 Partnership Program allows you send a unique web link to our website. All orders that come to our system through your link will be credited toward your adoption. We cannot link any orders that do not originate from your code, so make sure that you give it to everyone supporting you! If someone forgets to use your link, we cannot give credit to your account. The Bulk Order Program does not allow for credit to your adoption through outside orders...the fundraising family places all orders at a discounted price and then receives the profits from their resale to supporters.
